

## TECHNICAL SKILLS

- Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), Typescript
- Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Material ui, SCSS, Redux, Styled Components
- Tools & Platforms: VS Code, Git, Github, Netlify, Vercel, Figma, Firebase, Trello, Jira

## PROFESSIONAL EXPERIENCE

### Bals University

March 2023 - July 2023

#### Frontend Developer - Contract

- Assisted in the development of user interfaces using Next.js, Typescript, Tailwind css, SCSS, React Query.
- Collaborated with other developers to integrate backend functionalities, ensuring seamless user interactions.
- Developed responsive web designs, enhancing the platform's usability and accessibility on different devices.
- Implemented design mockups and wireframes into code, maintaining consistent design and branding guidelines.
- Assisted in troubleshooting and resolving frontend issues, contributing to the overall improvement of the user experience.

### Boundless Digital Services

July 2023 - August 2023

#### Frontend Developer - Contract

- Utilized React and Next.js to create dynamic and interactive components, enhancing user engagement and interactivity.
- Implemented web performance optimization techniques, resulting in faster load times and improved user satisfaction.
- Conducted code reviews and participated in team discussions to maintain high code quality and adherence to best practices.
- Developed responsive and accessible web interfaces, ensuring optimal user experiences across various devices and browsers.

### Lovable Baby Stores

August 2023 - September 2023

#### Frontend Developer - Contract

- Independently designed and developed an ecommerce platform specializing in baby clothing and accessories.
- Leveraged Next.js to develop a high-performance, server-rendered frontend, ensuring rapid load times and enhanced SEO.
- Created responsive and user-friendly interfaces to ensure seamless navigation and an exceptional shopping experience.
- Conceptualized and implemented user authentication, login, and sign-up features, enhancing user security and account management.
- Crafted engaging product pages with detailed descriptions, contributing to increased user engagement and conversion rates.
- Designed and implemented advanced filtering and sorting mechanisms, improving product discoverability and user satisfaction.
- Devised a personalized product recommendation algorithm, enhancing customer engagement and cross-selling opportunities.
- Utilized Redux for efficient state management, enabling seamless data flow and consistent user interactions.
- Optimized website speed and performance, resulting in reduced loading times and an improved user experience.
- Employed TypeScript for improved code quality and error prevention during development.

## PROJECT

### SpendSense - Finance Tracker App

August 2023 - September 2023

- Designed and implemented the app architecture using Next.js, TypeScript, Material-UI, Redux, Tailwind CSS, Firestore, and Firebase.
- Developed the user authentication system, allowing users to sign up securely with full name, email, and password.
- Created the captivating dashboard interface with real-time metrics, including total expenses, monthly expenses, and daily expenses.
- Designed and developed an intuitive sidebar navigation for easy access to various app sections.
- Implemented 'All Expenses' table with advanced search, sorting, and filtering functionalities using Material-UI.
- Crafted 'Create' page for users to effortlessly input new expenses, ensuring a seamless UX.
- Integrated various technologies seamlessly to ensure smooth user interactions and an aesthetically pleasing UI.
- Implemented Firebase authentication while maintaining user data security and privacy.
- Designed a responsive and user-friendly dashboard with real-time data updates for a dynamic user experience.
- Extensive planning and architecture design to ensure compatibility and smooth interactions between technologies.
- Integrated a chart library with customizable filters to dynamically adjust displayed data.
- Leveraged Material-UI components and well-structured code to create an efficient and user-friendly 'All Expenses' table.
- Users often struggle to organize their expenses and categorize them for better financial planning. SpendSense offers features that allow users to categorize their expenses, making it easier to analyze spending patterns.
- Before SpendSense, users might have used manual methods or spreadsheets to keep track of expenses. My app provides a digital solution that allows users to access their financial data anytime, anywhere.

## EDUCATION

### Sarinter College (Lagos, Nigeria)

September 2017 - June 2023

#### High School Diploma

- Successfully completed high school education at Sarinter College, achieving a well-rounded academic experience. Developed a strong foundation in various subjects and honed critical thinking skills. Actively engaged in extracurricular activities and projects, fostering teamwork and leadership abilities.
