Experienced front end software engineer focused on building accessible products for the web

PROJECTS

Sportpals (Building)

<https://sportpals.vercel.app/>

(NEXT.JS, TYPESCRIPT, TAILWIND, FIREBASE, API)

SportPals is a sport-centric app focused on football. Users can log in seamlessly with their Google account and access a vibrant community. Engage with fellow enthusiasts, share stories, post on feeds, and chat in real-time. The sport page provides comprehensive access to matches, live scores powered by a reliable football API.

Foodmart

<https://emmanuelfood-mart.vercel.app/>

(NEXT.JS, REDUX, TAILWIND, NEXT AUTH, FIREBASE, STRIPE)

Food Mart is a robust e-commerce web app built with Next.js, Tailwind, Redux, Firebase, NextAuth, and Stripe. It offers a seamless shopping experience with features like easy navigation, secure login, efficient cart management, and smooth checkout process. Next.js and Next/Link enable intuitive browsing, while NextAuth and Firebase ensure secure logins. The "Add to Cart" function allows users to effortlessly select and manage items. Stripe integration ensures secure payments, providing users with a worry-free transaction experience.
